

SUMMARY: WHO I AM

Full-stack developer with 5+ years of experience specializing in frontend and backend systems. Recently earned the **IBM AI Engineer Certification**, gaining hands-on expertise in Retrieval Augmented Generation (RAG), NLP, large language models (LLMs), & frameworks such as LangChain and Hugging Face Transformers. Built and deployed AI-integrated applications using Python, Flask, & Gradio, including a voice-enabled AI assistant, image captioning tools with BLIP, & chatbot interfaces using BlenderBot and IBM Watson® Speech Libraries. Skilled in developing and deploying voice, text, and translation features powered by automatic speech recognition and text-to-speech technology. Now focused on transitioning into AI engineering roles where I can apply these advanced AI development skills to real-world applications.

EXPERIENCE: WHERE I'VE WORKED

Slalom • Software Engineering Consultant

April 2022 – Present

Front-end and back-end development across multiple high-impact projects for enterprise clients including BP, Capital One, Proofpoint, Phillips66, TC Energy and others. My work has included building mobile and web apps for over 500,000 users using *React, Angular, React Native, TypeScript, GraphQL, and PostgreSQL*. I've developed scalable component systems, integrated third-party authentication and analytics, and delivered accessible, responsive interfaces. Collaborating with cross-functional teams, I've consistently shipped performant, user-centered features aligned with business goals.

National Oilwell Varco • Software Engineer

Feb 2020 – Apr 2022

Owned and maintained B2B applications in the MaxMT Industrial Platform used globally by 1,500+ users. • Delivered new features, bug fixes, and UI enhancements using *Angular, TypeScript, Storybook, and Cypress*. • Partnered with backend and design teams to ensure system scalability and visual consistency.

HIGHLIGHTS & IMPACT

- Mentored junior engineers in scalable architecture and code reviews
- Shipped production features for apps generating over \$120M/year.
- Delivered accessible interfaces for apps with 500,000+ users.

EDUCATION: WHAT I LEARNED

- **IBM AI Engineering Certificate**
Focus in RAG (Retrieval-Augmented Generation) using Python 2025
- **Full Stack Development Certification**,
Byte Academy (Bachelor's Degree equivalent) 2019

TECHNICAL SKILLS: WHAT I KNOW

Front end: JavaScript (ES6+), TypeScript, HTML, CSS, React, React Native, Angular, Redux, Apollo Client, Jest, Cypress, Storybook, E2E/Integration Testing, Bootstrap

Back end: Node.js, Python, Flask,

AI: AWS Bedrock, Google Vertex, RAG, NLP, LLM API's, LangChain

GraphQL, SQL, PostgreSQL, DynamoDB, Git, Accessibility, Responsive Design, Performance Optimization

CERTIFICATIONS

IBM – Developing AI Applications with Python and Flask

Issued 2025 · Credential ID: 03L1MB6R9BYW

Skills: Python, Flask, REST API, AI Agents, Artificial Intelligence (AI)

Hugging Face – Fundamentals of Agents

Issued 2025

Skills: AI Agents, LLMs, Python

IBM – Generative AI: Elevate Your Software Development Career

Issued 2025 · Credential ID: 8A6111I2FKAD

Skills: AI Agents, Artificial Intelligence (AI), Large Language Models (LLMs)

Google – Introduction to AI and Machine Learning on Google Cloud

Issued 2025 · Credential ID: SJLLWV949G2P

Skills: Artificial Intelligence (AI)

IBM – Python for Data Science, AI & Development

Issued 2025 · Credential ID: R1NBE7O1J5QN

Skills: Python, REST API, AI Agents

IBM – Artificial Intelligence Essentials V2

Issued 2025

Skills: Artificial Intelligence (AI)

Microsoft – Certified: Azure AI Fundamentals

Issued Jul 2022

DataCamp – AI Fundamentals

Issued Jun 2024 · Credential ID: AIF0028207391378

Skills: NLP, AI, LLMs

Microsoft – Foundational C# with Microsoft

Issued Apr 2024

Skills: Software Development

Codebashing – Application Security and Secure Coding Training in React

Issued Mar 2023 · Credential ID:

046a1440afa7b0704961bf29b20c9fbc85d0d1fb

Codecademy – Advanced React Certification

Issued Jan 2023

Apollo GraphQL – Graph Developer: Associate

Issued Jan 2023

Code With Mosh – Ultimate React Native Fundamentals

Issued Jan 2023 · Credential ID: cert_cwv7ty2n

PMI – DevOps Foundations: Lean and Agile

Issued Dec 2022 · Credential ID:

AXiQqWU-EMhvExbw0D9xVxvV5E2n

Udemy – Learn and Understand NodeJS

Issued Dec 2022 · Credential ID:

UC-ddb46c59-5736-40de-bdae-cde830545f7a

AWS – AWS Partner: Accreditation (Technical)

Issued Jul 2022

LinkedIn – C# Essential Training: Syntax and OOP

Issued Jan 2020
